

The following software can operate also with Microsoft VISTA:

ARC230
ARC785 Basic
ARC785 PRO
ARC3500 Basic
ARC3500 PRO

ARC 230/785/3500 software packages must have 'full' administrative rights
else software may not work properly

Instructions for setting Vista administrative rights:

- install the Butel ARC software
- do not start the software yet!
- click 'Computer' on your desktop
- in the 'Folder' section click on 'C:'
- locate the software installation folder (usually program files/butel/)
- right click on the program exe file (ARC icon) and select properties.
- select 'compatibility' tab
- locate the option 'run as administrator' and tick that option.
- confirm by clicking ok.
- you can now start the program
