

# KBC 27 NGP

No Ground Plane Antenna / Geen Massa nodig

## Technical Data:

Type:	Helical loaded
Impedance:	50 $\Omega$
Frequency Range:	27 MHz
Polarization:	Vertical
Max. Power:	100 Watts
V.S.W.R. at freq. res.:	$\leq 1.4:1$
Bandwidth:	800 KHz
Height approx:	950 mm
Weight approx:	500 gr
Mounts:	N, NP

KBC 27 NGP is a vehicular antenna for mobile service. The whip is made of glass fibre for the best robustness and its double helical winding works as an inductive translator. No tuning is required. KBC 27 NGP is supplied with a stainless steel spring to get the higher flexibility while driving.
