MEET MATCH
game-changing
device to the
HAM market.

RigExpert

Base model

2 licenses

Base model – factory-set in the MATCH device

■ Frequency range:

0,1 to 70 MHz

■ Display modes:

- SWR Chart
- RX Chart
- Return Loss Chart

■ Table modes:

- SWR Meter
- MultiSWR Meter
- R, X, Z, L, C, Loss, Phase Meter

■ Features:

- Memory Slots for saving measurements
- Jump to Extremum Value
- Save Measurements
- Load Measurements
- Choosing GUI Language
- Choosing GUI Palette
- Choosing Battery Profile

■ Languages

English, Ukrainian, Spanish, French, German, Portuguese, Italian.

■ Tools

- Self test

- Controlling Sound
- Selecting System Impedance
- Choosing Metric/Imperial Units
- Choosing IARU Regions
- Setting the Cable Velocity Factor
- Setting Frequency Correction Factor
- Factory Reset
- Clearing Saved Charts

ADVANCED license

Upgrade allows an access to additional features, marked with the color

■ Frequency range:

0,1 to 230 MHz

■ Display modes:

SWR Chart, RX Chart,
Return Loss Chart,
Smith Chart

■ Chart modes:

SWR Meter, MultiSWR
Meter, R, X, Z, L, C, Loss,
Phase Meter, *Multé,*
MultiBand, Quick band

■ Features:

- *SWR2Air feature*
- *BLE Feature*
- Memory Slots for saving measurements
- Jump to Extremum Value
- Save Measurements
- Load Measurements
- Choosing GUI Language

■ Languages

English, Ukrainian,
Spanish, French, German,
Portuguese, Italian.

■ Tools

Stub Tuner, Length vs VF,
Cable Loss, Cable Impedance,
Self test, *OSL Calibration*

- Choosing GUI Palette
- Choosing Battery Profile
- Controlling Sound
- Selecting System Impedance
- Choosing Metric/Imperial Units
- Choosing IARU Regions
- Setting the Cable Velocity Factor
- Setting Frequency Correction Factor
- Factory Reset
- Clearing Saved Charts

RFE license

Upgrade allows an access to additional features, marked with the color

■ Frequency range:

0,1 to 500 MHz

■ Display modes:

SWR Chart, RX Chart,
Return Loss Chart,
Smith Chart

■ Chart modes:

SWR Meter, MultiSWR Meter,
R, X, Z, L, C, Loss, Phase
Meter, Multé, MultiBand,
Quick band, *TDR Chart*

■ Features:

- SWR2Air feature
- BLE Feature
- Memory Slots for saving measurements
- Jump to Extremum Value
- Save Measurements
- Load Measurements
- Choosing GUI Language

■ Languages

English, Ukrainian,
Spanish, French, German,
Portuguese, Italian.

■ Tools

Stub Tuner, Length vs VF,
Cable Loss, Cable Impedance,
Self test, OSL Calibration,
User OSL Calibration Profiles

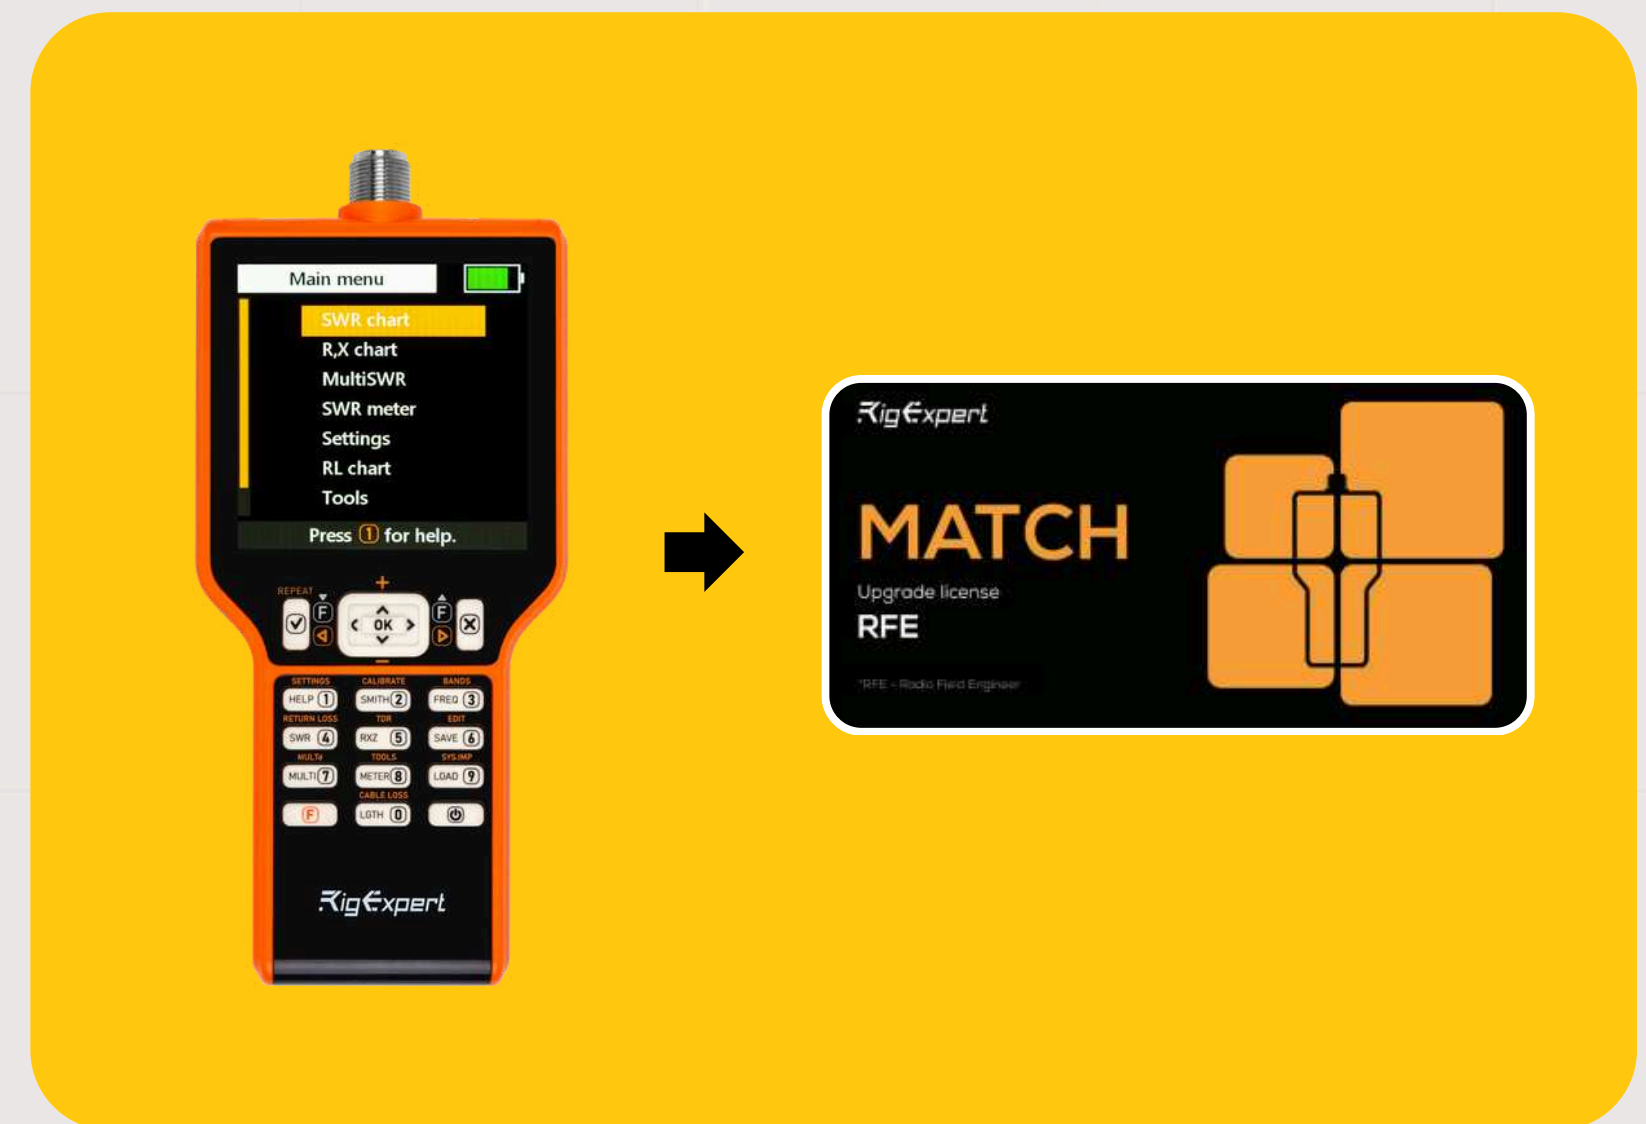

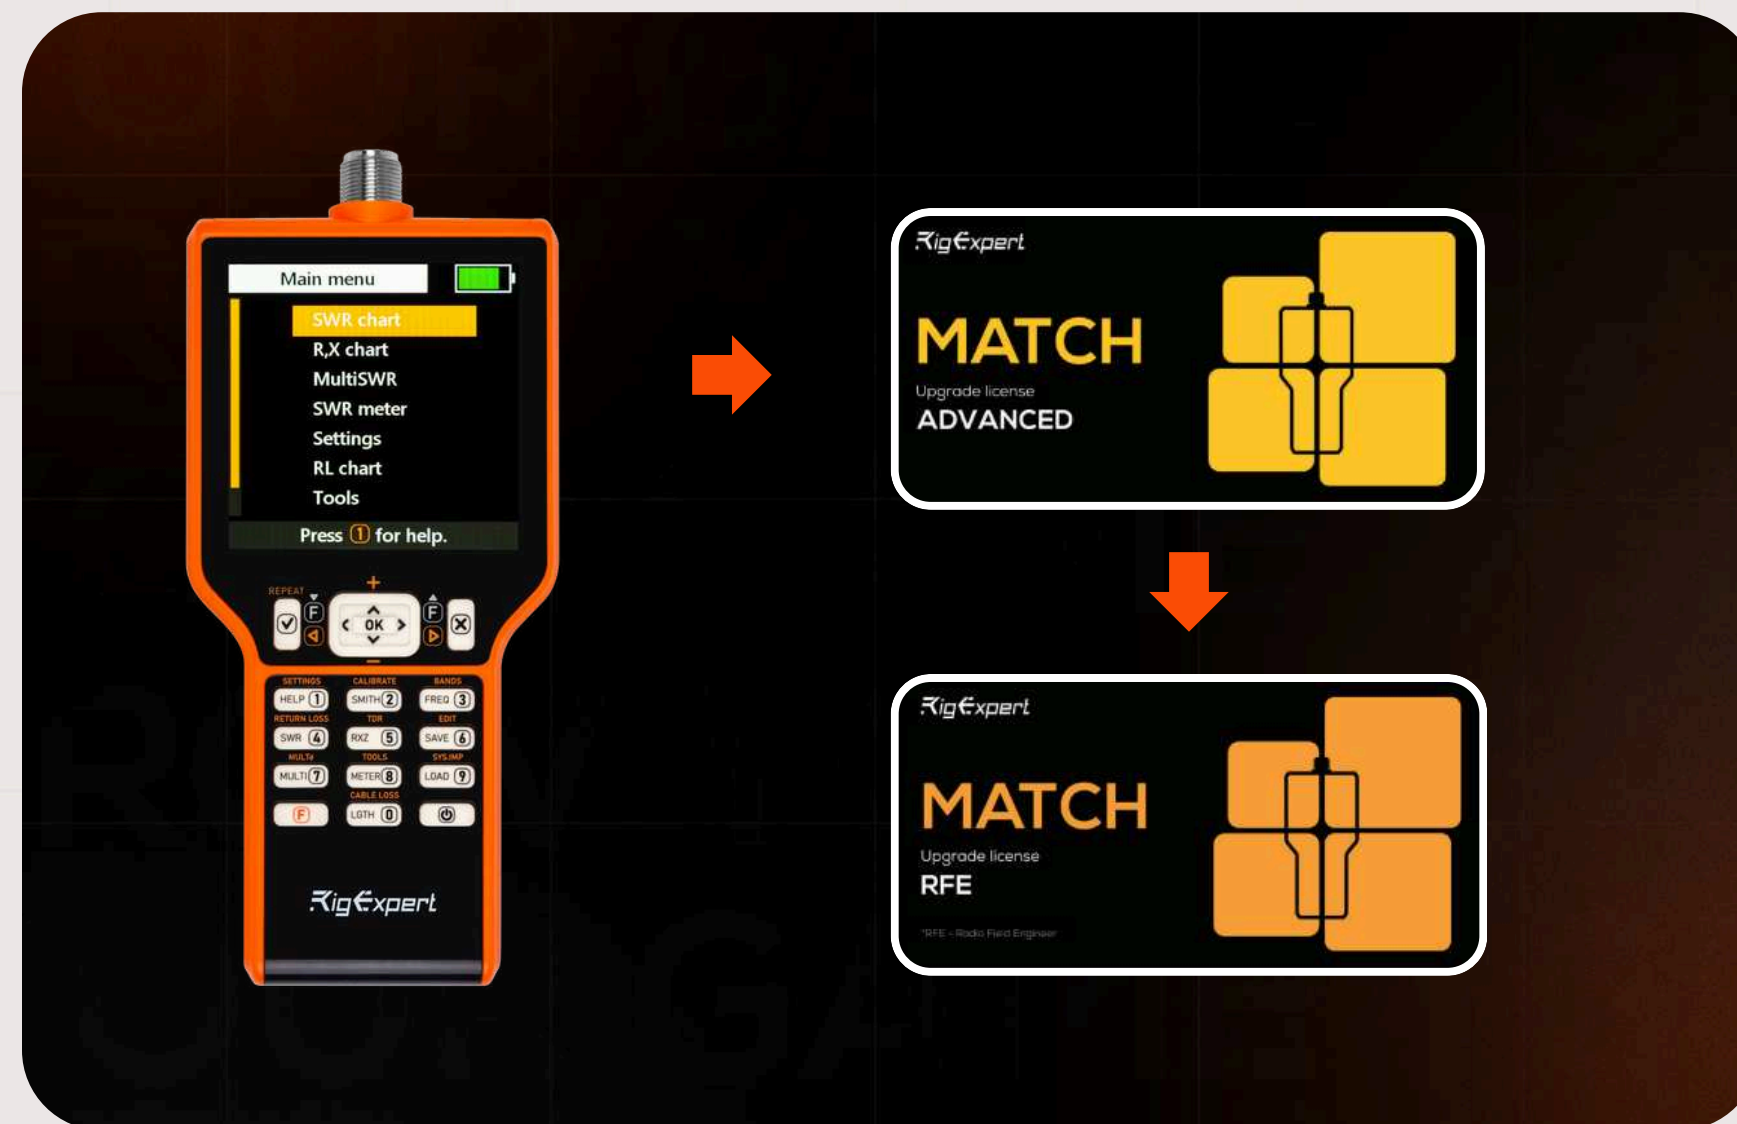

- Choosing GUI Palette
- Choosing Battery Profile
- Controlling Sound
- Selecting System Impedance
- Choosing Metric/Imperial Units
- Choosing IARU Regions
- Setting the Cable Velocity Factor
- Setting Frequency Correction Factor
- Factory Reset
- Clearing Saved Charts

Purchase Paths

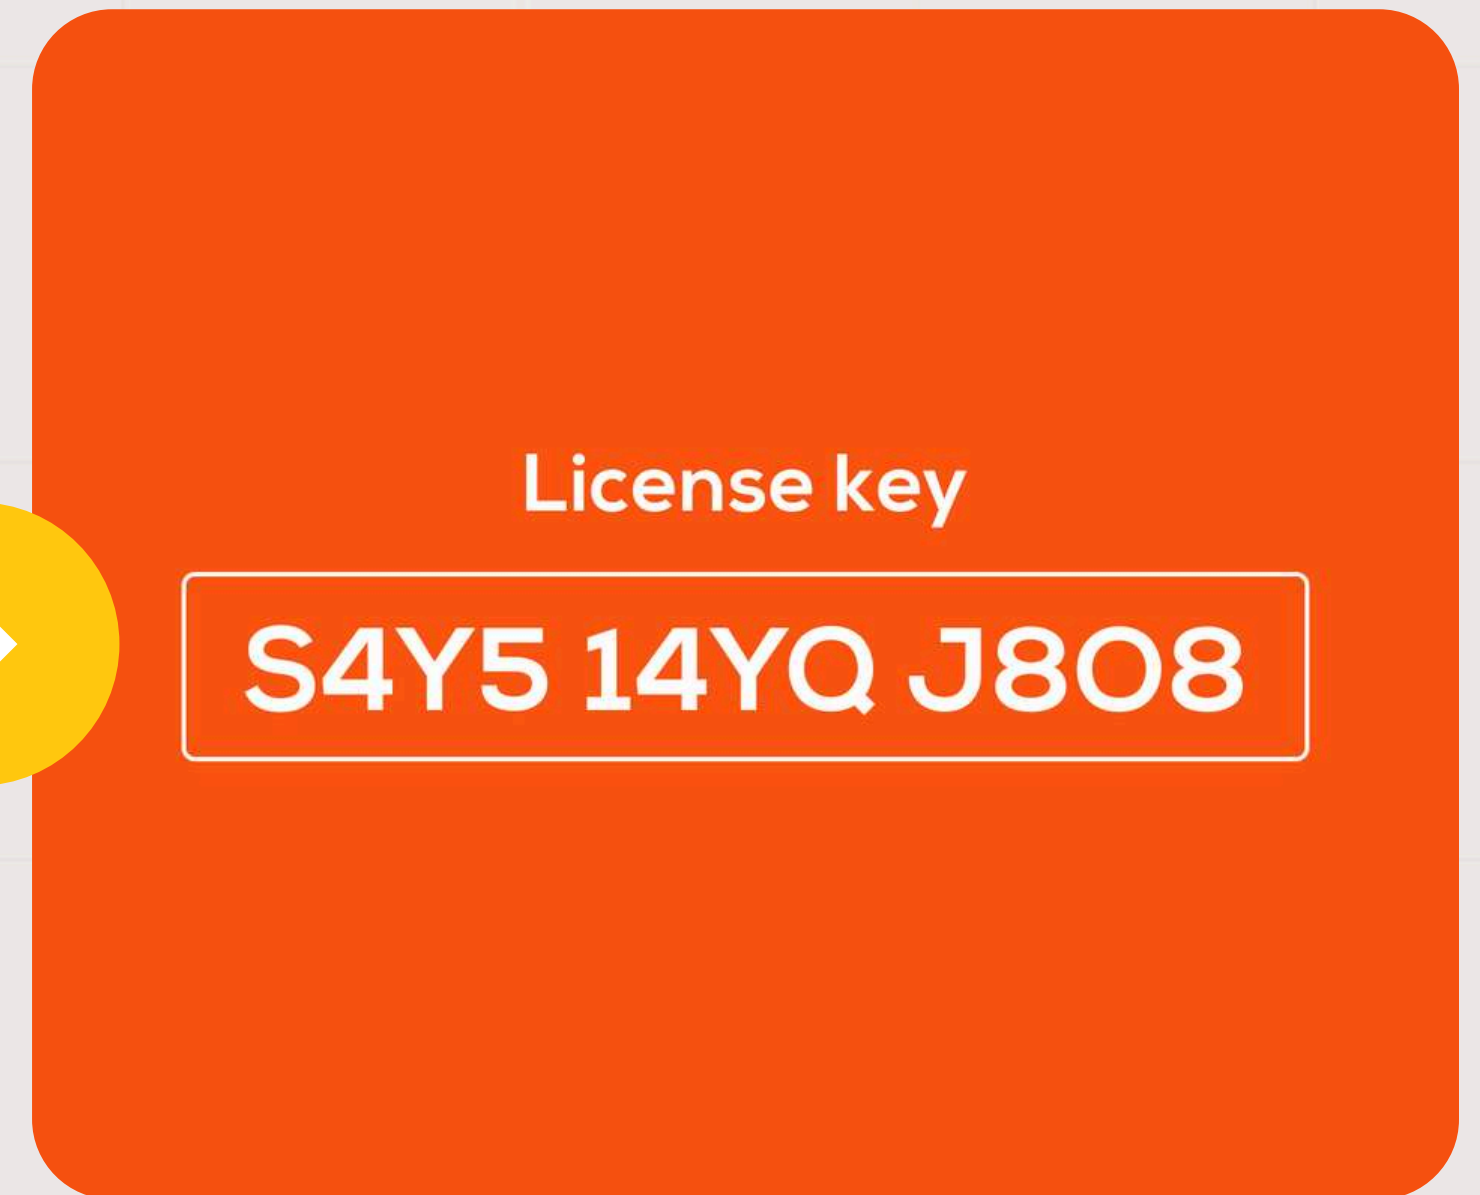

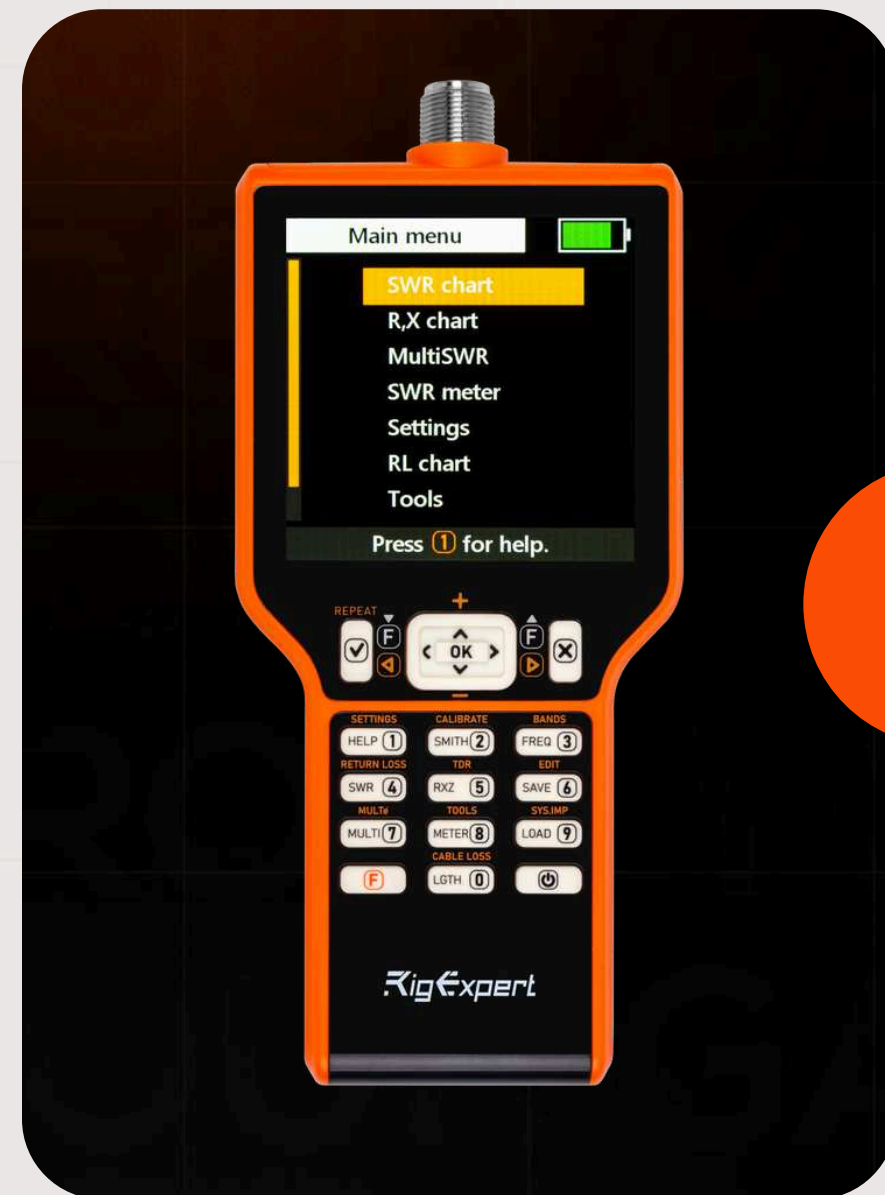

- ✓ Users can purchase the Base model and upgrade incrementally—first to the Advanced license and later to the RFE license.

- ✓ Alternatively, they can upgrade directly from the Base model to the RFE license in one step.

EASY Upgrade

- ✓ After purchasing the desired license, the user opens the License Pack and enters the 12-digit License Key using the AntScope2 software on their PC.

Why MATCH Will Be a Big Success in the HAM Market

Future-proof:
Designed to grow with the user, MATCH ensures adaptability with customizable features and updates.

Accurate, Reliable, Fast: Delivers precise antenna analysis with speed, starting with a fully functional base setup.

Wide Audience Appeal: Perfectly suited for beginners and seasoned professionals alike.

Cost-Effective: Saves users money by allowing functionality upgrades via licenses instead of purchasing a new device.

MATCH Upgradeable Powerful Antenna and Cable analyzer up to 500 MHz.

Applications

- Amateur radio
- Professional radio
- Commercial radio
- Telecommunications

Use cases

- Checking and adjusting antennas
- Cable Length and Velocity Factor measurements,
- $1/4\text{-}\lambda$, $1/2\text{-}\lambda$ coaxial stubs setup
- Finding cable fault
- Measurement of parameters of other RF elements -
 - Capacitors and inductors
 - Transformers
 - Traps

Main Features

- Upgradeable by licenses
- Big color TFT LCD 4.0" display
- High contrast with Low Power Consumption
- Consistency and accuracy without prior recalibration
- Multilingual user-friendly interface
- Built-in Helper at the push of a button
- Factory calibration- ready to use
- OSL calibration data memory to select different measurement fixtures quickly (available for RFE license)

RigExpert warranty

RigExpertCare™ is the 2-year limited warranty coverage: Rig Expert Ukraine Ltd. will replace defective goods covered by the Warranty with new goods of the same model as soon as possible. Receive an additional one-year warranty upon registering your MATCH with the RigExpert Club (by website or AntScope2).
